Cognitive Core Labs

San Francisco, CA (Remote Friendly)

98% Match

Staff Distributed Systems Engineer

Architecting next-generation distributed inference runtimes with ultra-low latency guarantees across multi-cluster Kubernetes fabrics.

Go, Kubernetes, Raft Consensus, gRPC, eBPF

ESTIMATED TOTAL COMP

\$240,000 - \$310,000 + 0.25% Equity

Aether Edge Network

100% Remote / US & Canada

SERIES C

94% Match

Principal AI Infrastructure Architect

Lead architectural blueprints for global edge acceleration nodes, optimizing model weights caching, tensor pipelining, and distributed telemetry.

Rust, CUDA / TensorRT, Kafka, Distributed Storage

ESTIMATED TOTAL COMP

\$260,000 - \$340,000 + Options

Novus Financial Ledger

New York, NY (Hybrid • 2 Days)

91% Match

Lead High-Throughput Backend Engineer

Design microsecond settlement pipelines handling multi-billion dollar transaction velocity, with strict zero-loss idempotent guarantees.

Java 21, Kafka, PostgreSQL, AWS

ESTIMATED TOTAL COMP

\$225,000 - \$285,000 + Annual Bonus

Lakehouse Scale Systems

Seattle, WA (Remote Flexible)

PRE-IPO

89% Match

Staff Query Engine Optimizer

Pushing the boundaries of vectorized execution engines, cost-based query optimization, and petabyte-scale columnar data streaming.

C++20, Apache Arrow, Data Lake, SIMD

ESTIMATED TOTAL COMP

\$250,000 - \$320,000 + High-Growth RSUs
